Abstract:

A list of 139 works related to Locke, published between 2017 and 2020 and added to the John Locke Bibliography since the *Recent Publications on Locke* published in *Locke Studies* vol. 18.

Keywords: John Locke, recent publications

[Locke Studies](#) is published by [The John Locke Society](#).

This is an open access article published under the terms of the [Creative Commons Attribution-NonCommercial-ShareAlike 4.0 International](#) license, which permits use, distribution and reproduction in any medium, provided the original work is properly cited and shared under the original license.

Locke Studies will contain an annual list of “Recent Publications.” The lists will be limited to items published within the past three years. All types of publications will be included—books, articles, book chapters, dissertations, online publications—with the exception of untitled book reviews (except for those published in *Locke Studies*). The present list includes the articles published in *Locke Studies* volume 19.

These lists are based on additions to the online [John Locke Bibliography](#); the entries have been edited to conform to the citation style of *Locke Studies* and, in some cases, have been abridged. More complete information may be found in *The John Locke Bibliography*, which is intended to stand as a comprehensive listing of Locke publications to date.

There are always items that have escaped my attention. I would welcome suggestions for additions to the bibliography, as well as notice of new publications. These can be communicated to me by email at jxa16@psu.edu.

Whenever possible, the entries are based on my personal examination of the items. Items that I have not been able to examine personally are indicated below by an asterisk at the end of the entry.
